Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

**RESPONSE**

Responsive to the Official Action dated July 2, 2003, the applicants elect, with  
traverse, the subject matter of the Examiner's Group II for further prosecution in the  
above.

Withdrawal of the restriction requirement is requested as the Examiner's basis for  
a restriction is incorrect. Specifically, the Examiner asserts that restriction is appropriate  
as the subject matter of the Examiner's Group I and Group II are allegedly related as  
product and process of use. See, page 2 of the Office Action dated July 2, 2003 (Paper  
No. 4). In fact, the subject matter of the Examiner's Group II is drawn to a product  
(composition) while the subject matter of the Examiner's Group I is not drawn to a

Appl. No. 10/031,235

August 4, 2003

process of using the product, but rather a process of using copolymers. That is, the subject matter of the Examiner's Groups I and II are related as a process of use of a compound A (such as a copolymer) and a product (composition) containing such a compound A (copolymer). The Examiner's basis for requiring the restriction is thereof unfounded and mischaracterizes the claimed invention. Withdrawal of the restriction requirement and examination of all the pending claims is therefore requested.

The applicants elect, as a single disclosed species, and in order to be completely responsive, poly(methyl methacrylate-b-butyl acrylate-b-methyl methacrylate) triblock copolymers.

All of the claims 12-32 of the Examiner's Group II read on the elected species.

Reconsideration and withdrawal of the restriction requirement as well as an early and favorable Action on the merits of all the claims are requested.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
